## About us.

A few years ago, I was sitting in my kitchen thinking of what hobby I could get my teeth into.

I thought to myself I love candles, so I went out and bought myself a candle making kit.

A few months later I decided to research other things related to candle making. I bought some fragrances and started experimenting. I used my closest friends as guinea pigs and got some great feedback. I purchased more equipment, set up a website and converted an old coal shed, Candlecrazy was formed!

Today I have become quite an established and trusted seller of everything wax, Candles, wax melts and gifts.

Every item I sell is handmade to order and contains the perfect blend of quality wax and fragrance.

Candlecrazy keeps growing from strength to strength.

Why not try something for yourself? Or buy as a gift for a friend?

I'm more than confident that you will not be disappointed and will return for more and more.

I don't spend money on advertising and rely on the power of your recommendations so please leave honest feedback on our website.

What started as my hobby has become my passion.

Thank you for your continued support. Candlecrazy.
